

Village End – Daily Routine

Opening - welcoming children and families into Village End and discussing individual needs.

Breakfast time – Healthy breakfast choices according to individual dietary requirements.

Special Time/Circle Time – welcome, singing, days of the week, weather, sharing individual news, singing songs & stories.

Continuous provision & Independent choosing – the children will have access to a range of resources and activities to support their development. Children will be able to play with their friends, or alone, and will have the support of their key person and other Pre School practitioners. Outdoor play is accessible throughout the session.

Activities available may be: painting, music and singing, story sessions, puppets, messy play activities – wet and dry sand, play dough, soil, pasta or water, dressing up and a role play area, bikes, scooters, climbing equipment, balls, hoops, building blocks and materials, IT equipment i.e. cameras, video recorders, calculators and computers. Treasure baskets, boxes, musical instruments and a range of other resources will be available according to age and stage of development.

Snack time and lunch – We offer a range of healthy snacks and lunches which cater for individual dietary requirements.

Naptime – Children can listen to soft music or a story of their choice to help them wind down. They benefit from some quiet time to have a restful nap or just to relax and reflect on their morning, according to their individual routine.

Individual development - your child's key person will plan activities that will support your child's individual development. These may be child-initiated or adult-initiated to follow and extend children's individual interests. They will observe your child daily and use these observations to plan their 'next steps' in their learning journey.

After School – After school children arrive and have access to a range of play opportunities, art and craft activities. Our junior buddies help to take care of our younger members. There is a separate area with resources and activities which focuses on younger children.

Dinner time – We prepare and cook, fresh nutritious food every evening. Children are involved in planning our menu and enjoy helping to prepare the dining area.

Home time - this is an opportunity for parents to chat to their child's individual key person and find out about their day.
